

# Living with Parkinson's

## Patients & Caregivers

All perspectives matter

We are looking for participants to complete a short questionnaire (5 min), with the aim of hearing directly from people living with Parkinson's disease, including both individuals with Parkinson's and/or caregivers of people with Parkinson's.

### Why are we carrying out this study?

At Insignals Neurotech, we are developing solutions to improve communication about symptoms between patients, caregivers, and healthcare professionals. Your experience is essential to help us understand everyday challenges and create solutions that are more human-centred, simple, and useful. Together, we can make a difference.
